

# SCHEDULED MAINTENANCE

Avoid paying extra for equipment breakdowns and after-hours service! Call our Service Department out to do a scheduled maintenance on your farm.

Equipment that is kept in good repair lasts longer and is less likely to pick the worst possible time to stop working.

## A scheduled maintenance includes:

**VACUUM SYSTEM:** Clean & rebuild vacuum regulator • Clean or replace pre-filters • Change oil, filter, & flush pump • Check motor voltage & amps • Check/replace belts • Check pump CFMs, vacuum level & vacuum reserve

**PULSATION SYSTEM:** Clean pulsators • Rebuild, & replace rubber parts in pulsators • Graph all pulsators to ensure correct specs

**MILKER UNIT:** Replace rubber parts in claws • Clean claws • Check milk hoses & short air tubes for holes or cracking • Check inflations for wear & tear

**RECEIVER GROUP:** Replace milk pump seals • Replace drain tubes • Check out float/probe setups for operation • Replace trap, receiver, & float/probe body gaskets

**MILK/WASH LINES:** Check/replace hycar gaskets in milk & wash lines • Check/replace hoses to cip manifolds/jetter cups • Check/replace jetter cups & cip seals • Check/replace duckbills & line drains • Replace rubber pieces in filter assembly

**WASHING SYSTEM:** Replace chemical pump tubes • Replace rubber diaphragms in diverter valves • Replace rubber diaphragms in air injector assembly • Run full wash to check chemical levels, water temperature, air injection & correct operation

**AUTOMATION:** Operate units to check for malfunctions in automatic takeoffs • Rebuild/replace rubber parts in meters & vacuum shut off valves • Check/rebuild control valves

**VPR:** Powerful serviceman tool to help farms analyze many aspects of milking • Provides the ability to produce detailed graphs & charts to help optimize milk yields & improve herd health

# TRUE BLUE PROGRAM

 DeLaval

 MILKBARN

To schedule your maintenance, call Mike Slays at 301-223-6877

Lower your milking costs by joining our True Blue program!  
Talk to your route salesman or call 301-223-6877 for more details.
